Thanks, Megan. I know the EPDS issue I've already brought to ITSD's attention, but this is a good reminder to follow up. I don't know about the other two but I can pass them along.

Subject: New ATA System

Hey Emily,

After using the system for a while, I had some feedback to share, you thought that might be helpful.

1. Intake/Enrollment – I don't know about everyone else, but I use the TAB key to go from field to field within the system while I am entering information. When I get to the SSN field, the screen seems to refresh itself and I have to click back into the field to get into it again. Not sure if this is something that can be fixed or not but it is definitely annoying.
2. EPDS – it seems like the answers you have populated into the online EPDS form might be incorrect; I'm speaking specifically of question #6, where I believe the last answer is entered incorrectly; it should read "No, I HAVE been coping as well as ever"not sure though, so wanted to run it by you. It does not match what we have on our NFN EPDS forms.
3. Monthly Update Form – it seems silly to have to check yes or no for every category and I was wondering if it were possible to auto populate the answers to "NO" and then you would only have to check "YES" for those that were provided; additionally, if the FOB was indicated as "UNKNOWN" or "REFUSE TO ANSWER" in the initial enrollment, it would be nice to have his options completely grayed out.

I hope this is helpful and let me know if something doesn't make sense!!

Thanks!
Megan
